Notes from OP: Sorry for the super early post today guys, I've got some plans this evening so I'll add the links in when I'm back in front of my computer.

So far it's been a pretty slow news day so perhaps I'll have some additional links curated by then, otherwise it's going to be a pretty thin update.

PS, today marks 1 month of these tldr; posts so that's something worth celebrating (at least for me) 🍻

Edit: Thanks to everyone who chimed in about the RC tweet, yes I missed it since I posted this 5-hours before the tweet. Will try and post later tomorrow and in the future but sometimes real life gets in the way 😊

Notes from OP: Hey guys, sorry I wasn't here yesterday, I was at my best friends wedding so I was not online at all.

I have a TON of great links coming later (see below) for trending posts from both today and yesterday.

I figured I'd drop this final update at 4:20 again since that's been the running theme of the week. Starting Monday I'll get back on the normal schedule of posting these updates later into the evening.

Thanks for all of your support and for letting me take yesterday off to enjoy some quality time celebrating with my friends ❤️🙌

Items marked with an asterisk (*) above include Links to relevant posts that were not originally published today.

As always, **your feedback is welcomed** and if you have any other noteworthy news to add I encourage you to post a headline, summary and link to your source in the comments.
